Basic fastpitch umpiring and rules knowledge

BASU training course
Introduction

British Association of Softball Umpires actively seeks to promote umpiring to people wishing to get involved in the program.

The aim is to provide a means by which new and or inexperienced not yet qualified umpires, or people seeking to advance their rules knowledge, to be able to learn and participate in the sport at the local association level. The program will help develop and encourage participants to develop their umpire skills as desired.

*BASU would like to acknowledge Softball Australia, Softball Canada, ASA and ISF for some of the content in this manual.*

Becoming an umpire

There are many reasons people decide to become an umpire. Some are helping their club while others aim to extend their playing career or seek social and community involvement.

Becoming an accredited umpire highlights a recognised level of competence and effort and enables you to wear the BASU Umpires logo with pride, knowing you have earned it.

Prior to deciding to become an official umpire of Softball, the following next steps provide excellent insights into the role of an umpire and whether it is suited to you.

- You will need to have an understanding of the basic Softball rules and terminology
- You will need to know the basic skills involved in playing Softball as you will need to umpire on throwing, catching, fielding a ball, hitting and moving between base.

Method of engagement

This program will concentrate on the fundamentals of plate and base umpiring, you will learn from your peers by observing what duties need to be performed before, during and after a game. This manual will offer you important information that you can later refer to for example – the basic Signals, basic Rules and a simplified One and Two-umpire systems.

Other umpires will provide feedback on games that you will be involved in and can provide mentoring if you desire.
Modules

There are two modules that need to be completed to achieve accreditation as a BASU fastpitch umpire.

These can be completed at your own pace and timeframe and are designed to be simple and easy to complete. You need to read and study this manual as it will provide the resource information you should need to complete the course.

Module 1  Rules Knowledge

To achieve accreditation an umpire must be able to demonstrate rule knowledge by completing Module 1.

Module 2  Practical on diamond competency check

It is recommended that an umpire must be able to demonstrate basic umpiring skills. An umpire will achieve BASU accreditation by having practical umpiring experience in at least five games comprising a minimum of two plates and three bases in one season.

The recommending BASU official must complete the competency checklist in full. To be deemed 'competent' the applicant must successfully demonstrate all competencies during one or more games (see Attachment 1)

There is a detailed practical instruction section below to assist you in gaining the required skills. You should also work with other local umpires who will assist with you learning the basic umpiring skills.
Module 1 – Rules Knowledge

This section will advance your basic rule knowledge.

Official dimensions of a Softball Diamond
The Double Base sometimes referred as the safety base is approved for use at first base. Half the base is secured in Fair Territory and half the base (of a different solid contrasting colour) is secured in Foul Territory.

The following rules apply to the double base:

(a) A Batted Ball hitting the Fair portion is declared Fair, and a Batted Ball hitting the Foul portion only is declared Foul

(b) If a play is made at first base on any Batted Ball, or (Fastpitch (FP) ONLY) the Batter runs on a dropped third Strike, and the Batter-Runner (BR) touches only the Fair portion, and if the defence appeals prior to the BR returning to first base, the Batter-Runner is out

(c) A defensive player must use only the Fair portion of the base at all times

   Exception to Sec 4h 1c. On any live ball play made from first base Foul Territory, the Batter-Runner and the defensive player may use either portion of the base

(d) After over-running the base, the Batter-Runner must return to the Fair portion of the base

(e) On balls hit to the outfield when there is no play being made at the double base, the Batter-Runner may touch either portion of the base

(f) Once a Runner returns to the Fair portion he must stay on the Fair portion only
Pitching distances

Female 13.11m (43 feet)
Male 14.0m (46 feet)
Junior female 16 and under 12.19m (40 feet)
Junior male 16 and under 14.0m (46 feet)

Modified pitching distances are recommended for junior ages 14 and under.
Part 1: The pitcher

Both the pitcher and the catcher must be in position before the pitcher is considered ready to pitch.
Rule 6 Section 1b

The catcher must be inside the catcher's box.
Rule 6 Section 6a

The pitcher must have both feet in contact with the pitcher’s plate and come to a full and complete stop with the ball held in both hands. This position must be held for at least two seconds before starting the windup.
Rule 6 Section 1c & Rule 6 Section 1e
The pitcher may not stand in the pitching position on or near the plate unless he has the ball in his possession.

Rule 6 Section 1a

The ball must be delivered with an underhand motion.

Rule 6 Section 3e

A step may be taken simultaneously with the delivery of the ball.

Rule 6 Section 3i

The pitcher may use a windup, provided there is not a stop or reversal of the forward motion. The pitcher's hands must separate while on or prior to the pivot foot leaving from the pitcher's plate.

Rule 6 Section 3c
The pitcher may not continue to windup after releasing the ball.
Rule 6 Section 3l

The pitcher may not make a motion to pitch without immediately delivering the ball.
Rule 6 Section 3a

The ball may not be held longer than 5 seconds before starting the pitch.
Rule 6 Section 1e

A 'No Pitch' is called if the pitcher pitches during suspension of play.
Rule 6 Section 10a
A ‘No Pitch’ is called if the Batter has not had time to get ready.
Rule 6 Section 10b

The pitcher shall not deliberately roll the ball along the ground to prevent the Batter from hitting it.
Rule 6 Section 3m

No foreign substance may be put on the ball.
Rule 6, Section 5a

**Note:** The penalty for violation of all the above situations is the umpire will call an Illegal Pitch, awarding a ball to the Batter and awarding a base to any runner on base.
Exception: A No Pitch.
Part 2: The Batter

A Batter is an Offensive Player who enters the Batter's Box with the intention of aiding his team to obtain runs. He continues to be a Batter until he is either declared out by the umpire or he becomes a Batter-Runner.

A Batter-Runner is a player who has finished a turn at bat but has not yet been put out, or touched first base.

The Batter must stand with both feet within the Batter's Box.

Rule 7 Section 3c

It is a Strike if any part of the ball enters any part of the Strike Zone over home plate and the Batter does not swing at it.

Rule 7 Section 4a

Any pitch, outside the Strike zone, not swung at by the Batter, is a Ball.

Rule 7 Section 5a
Any ball at which the Batter swings and misses is a **Strike**, regardless of the position of pitch.

Rule 7 Section 4b

A 'Ball' is called for each pitch that does not enter the Strike Zone and is not swung at.

Rule 7 Section 5a

The Batter shall not change Batter's Boxes while the pitcher is ready to pitch.

Penalty: The Batter is out.

Rule 7 Section 9j

The Batter is out if a foot is completely outside the lines of the Batter's Box and is touching the ground at the time he hits the ball.

Rule 7 Section 9d
Four Balls entitles the Batter to go to first base. This is called a Base on Balls.

Rule 8 Section 1c

The Batter is permitted to go to first base if a pitched ball that is not a Strike hits him and he has not swung at it.

Rule 8 Section 1f

It is a Strike if the ball is swung at and missed and the pitch hits the Batter. The ball is dead

Rule 7 Section 4f

It is a Strike if the ball is hit into Foul Territory and is not caught on the fly and there are less than two Strikes on the Batter.

Rule 7 Section 4d
Fair and Foul Balls

A Fair ball must:

➢ Settle in Fair Territory between first and third bases, or
➢ Bounce past third or first base in Fair Territory, or
➢ Bounce over first or third base, or
➢ Fall Fair beyond first or third base on a Fly Ball, or
➢ Be first touched on or over Fair ground.

**Fair Territory** is territory within Foul lines. Foul Territory is area outside the Foul lines. The line is considered in Fair Territory so the complete ball must be outside the lines to be Foul.

**Note:** If a Fielder is standing in Foul Territory and touches the ball while over Fair Territory it is a Fair ball, likewise if a Fielder is standing in Fair Territory and touches the ball over Foul Territory it is a Foul ball. Fair or Foul is determined by the position of the ball rather than the fielder.

Rule 1 Section 29 & Rule 7 Section
Fair Ball examples

- The ball first bounces in Foul Territory then turns and bounces into Fair Territory and is touched or comes to rest before passing 1st base
- The ball bounces in Fair Territory then crosses directly over the 3rd base and lands in Foul Territory
- The ball is touched by the Fielder in Fair Territory, and deflects into Foul Territory and comes to rest in Fair Territory
- A Batted Ball rolls directly along the Foul line, touches 1st base and then rolls Foul, never passing the base
- A batted ball bounces toward 1st base contacting the corner of 1st base and the double base at the same time and the double base at the same time
- The Batted Ball first lands in outfield Fair Territory beyond the base and bounces and settles Foul
- The Batted Ball hits left field Foul pole and bounces into the stands in Foul Territory
- The Batted Ball first lands in Foul Territory then spins bouncing back directly over 3rd base and comes to rest in Fair Territory
- The Batted Ball first lands in Fair Territory then spins bouncing into Foul Territory beyond 1st base and comes to rest in Foul Territory
Foul Ball examples

- The ball first bounces in Fair Territory, then spins into Foul Territory before passing 1st base, and comes to rest in Foul Territory
- The ball curves over the Foul portion of the Double Base then bounces into Foul Territory
- A line drive hits the pitcher's plate without touching a player, veers into Foul Territory between home and third and comes to rest
- A Fielder touches the ball in Foul Territory or the Batted Ball hits a Runner while he takes a lead off third base in Foul Territory, and the ball goes deflects into Fair Territory
- A Batted Ball rolls bounces toward 1st base first contacting the foul portion of the double base and going into Foul Territory
- The Batted Ball passes over 3rd base and first lands in Foul Territory beyond 3rd base before turning a settling in Fair Territory
- The Fielder first touches the Batted Ball while the ball is over Foul Territory
It is a Fair ball if it Strikes the umpire on Fair Territory – before touching a Fielder other than the pitcher.

A pitcher is a Fielder if he touches or is touched by the Batted Ball.

Rule 7 Section 6d

It is a Fair ball if it Strikes a Runner on Fair Territory. Batter goes to first if the ball hits the Runner before it touches or passes a Fielder, other than the pitcher. The ball is dead and the Runner is out if in the judgement of the umpire any fielder had an opportunity to make a play.

If the Runner is hit by a ball that has been touched or passed a Fielder, other than the pitcher, the ball is alive and all Runners may advance.

Rule 7 Section 6d, Rule 8 Section 1e, Rule 8 Section 9k & Rule 8 Section 10f

A ball directly off the bat (not higher than the Batters head) to the catcher’s glove is a Foul Tip and is alive and in play. If it is caught on a rebound, it is not a Catch unless the ball touches catcher’s glove or hand first. A Strike is called; Runners may advance on the pitch.

Rule 7 Section 8. Note. A Foul tip not caught is a Foul ball and becomes dead
A Batter should run when he hits a Fair ball. Rule 8, Section 1a. He is then considered a Batter-Runner.

A Batter may run when he has three Strikes— if the catcher fails to catch the ball. Rule 8 Section 1b

The Batter is Out if he hits a Fair Fly Ball which is caught by a Fielder before it touches the ground. Rule 8 Section 2b

The Batter is out if he hits a Foul Fly Ball which is caught by a Fielder before it touches the ground. Rule 8 Section 2b
The Batter is out if his third Strike is caught by the catcher.
Rule 7 Section 9l

The Batter is also out after the third Strike is not caught if less than two are out and a Runner is on first base.
Rule 7 Section 9m

If the third Strike is dropped, with less than two out and first base is not occupied, the BR is safe if he can beat the throw to first, or he is not tagged off base.
Rule 8 Section 1b

The Batter is out if he bunts the third Strike Foul.
Rule 7, Section 9f
The Batter is out if the third Strike is swung at and hits him.
Rule 7 Section 9a

The Batter Runner is out if his Fair-Batted Ball bounces up and hits him while he is out of the Batter's box.
Rule 8 Section 2g (5)

The Batter Runner is out if a Fair-Batted Ball is held by a Fielder on first base before the BR reaches the base.
Rule 8 Section 2c

The Batter Runner is out if the ball is held by a Fielder on first base before the BR reaches the base on a dropped third Strike.
Rule 8 Section 2a

The Batter Runner is out if he is touched (tagged) before he reaches first base on a Fair-Batted Ball, or on a third Strike that is not caught.
Rule 8 Section 2a & Rule 8 Section 2c
The Batter is **Not** out if he drops the bat and the ball rolls and contacts the stationary bat.

Rule 7 Section 9i Exception 2

---

The Runner is out if he dodges more than .91 metres (3 feet) to avoid a **Tag**.

Rule 8 Section 9a

---

The Batter Runner is out if he interferes with a Fielder.

Rule 8 Section 2g (2) & (3)

---

Tagging a base ahead of a Runner when he is forced to advance, because the Batter became a Batter Runner, makes a **Force Out**.

Rule 1 Section 35 & Rule 8 Section 9c

---

This situation is not a Force Play. First base is open for the Batter. So the Runner at second base does not have to run.

Rule 1 Section 35
The Batter is out when a Fielder intentionally drops a line drive with less than two out in order to make a Force Play possible.
Rule 8 Section 2l

The Batter is out when a Fielder intentionally drops a Fly Ball after controlling it with less than two out in order to make a Force Play possible.
Rule 8 Section 2l

The Runner is out when a Runner interferes with a defensive player catching a thrown ball, or throwing to complete a play.
Rule 8 Section 9m

Batting out of order
The Batter who should have batted is out if someone else bats in his turn. To obtain the out the Defensive Team must appeal to the umpire before the next ball is pitched. If no appeal is made, all plays stand.

If an appeal is made while the incorrect Batter number Three is at bat, the proper Batter number two comes to bat and assumes the Ball and Strike count of the improper Batter Number Three. Nobody is out.
Rule 7 Section 2d Effect 1
If an appeal is made after Batter Number Three has completed his time at bat but before the next pitch, Batter Number Two is out. Bases run and scores made do not count if the advance is due to the actions of the improper Batter Number Three, but any outs obtained on the play remain out.

Rule 7 Section 2d Effect 2

**How a batter is awarded first base without jeopardy**

'Jeopardy' means in danger of being put out, as the ball is in play. To be ‘awarded’ a base means to be permitted to advance there without Jeopardy – that is, without danger of being put out.

Rule 1 Section 53

The Batter is awarded first base by having four balls called by the umpire.

Rule 8 Section 1c

The Batter is awarded first base if the catcher **Obstructs** and prevents him hitting the ball safely. If he hits the ball safely and advances both himself and all other Runners – ignore the obstruction.

Rule 8 Section 1d

The Batter is awarded first base when a Fair Batted Ball Strikes the umpire before touching or passing a Fielder, other than the pitcher.

Rule 8 Section 1e Effect 3
The ball is dead on a Foul fly not caught. Runners return.
Rule 9 Section 1e

The Batter is awarded first base if struck by a pitched ball he is not attempting to hit and which he tries to avoid.
Rule 8 Section 1f

**Dead ball**
When the ball is dead the play stops. No runs count and no one can advance – except as the result of acts while the ball was alive such as an Overthrow into Dead Ball Territory.

Overthrow into crowd. The ball is dead and runners awarded two bases at the time of the throw.
Rule 8 Section 7g
Part 3: The Runner

The Runner must touch first, second, third and home bases in order to score a run.
Rule 8 Section 4

The Runner may try for another base after the pitcher releases the ball, but not before.
Rule 8 Section 5a & Rule 8 Section 9u

If forced to return, a Runner must touch bases in reverse order – unless the ball is dead.
Rule 8 Section 4a

Two Runners may not occupy the same base. The first Runner retains right to base, except on Force Play.
Rule 8 Section 4d
If not a Force Play, and the second Runner is tagged while on base he is out.

Rule 8 Section 4d Effect

Runners advance one base without Jeopardy when the Batter is awarded first base and Runners must advance to vacate first base for him.

Rule 8 Section 7a

A Runner advances without Jeopardy to a base if a defensive player, without the ball and not in the act of fielding it, obstructs his progress. He is awarded the base he would have made.

Rule 8 Section 7b & Effect

All Runners and Batter are entitled to advance home without Jeopardy when a Fair ball is hit over the fence.

Rule 8 Section 1g & Rule 8 Section 7
All Runners and Batter advance three bases without Jeopardy if a Fielder touches any Fair ball with a thrown mask, glove or detached part of uniform. The Batter may try for home at his own risk.

Rule 8 Section 7f Effect 1

All Runners and Batters are entitled to advance home without Jeopardy when the ball is prevented from going over the fence by a Fielder striking it with a thrown glove, apparel or equipment. The ball stays alive.

Rule 8 Section 7f Effect 1 Exception

If a ball is thrown by a Fielder and another Fielder throws his equipment at, and contacts, the ball, Runners and the Batter advance two bases without Jeopardy, but may advance further at own risk.

Rule 8 Section 7f Effect 2

A wild pitch to the Batter which goes into the stands, bench, etc., entitles Runners to advance one base without Jeopardy.

Rule 8 Section 7c
The Runner is out when he fails to yield right of way to a Fielder fielding a Fair Batted Ball.
Rule 8 Section 9m

The Runner is out when he intentionally interferes with a thrown ball.
Rule 8 Section 9m

The Runner is out when he is tagged by a Fielder while off base.
Rule 8 Section 9b

The Runner is out if he passes the Preceding Runner unless that Runner has been put out as occurs occasionally on 'run-down' plays.
Rule 8 Section 9f
The Runner is out when the base to which he is advancing on a Force Play is tagged.
Rule 8 Section 9c 1

A Runner is out when he is tagged with the ball while off base on a Force Play.
Rule 8 Section 9c 3

**Appeal plays**
A live or dead ball appeal is a play or situation on which an umpire cannot make a decision unless requested by a manager, coach or player of the non-offending team. The appeal may not be made after a legal pitch has been thrown or an illegal pitch has been called. Rule 1 Section 2

If a Runner leaves base before a Fly Ball, Fair or Foul, is first touched and caught, he is out if the base is tagged before he returns to the base.
Rule 8 Section 9g

If a Runner misses a base, he may be put out by a Fielder touching the base with the ball before the Runner retags the base, or he may be tagged out before he returns to the missed base.
Rule 8 Section 9h
The Runner is out if he is tagged while returning to first base after over running and attempting to run to second base.
Rule 8 Section 9i

The Runner is out if he over slides home plate – misses it – and the plate is tagged by a Fielder before the Runner returns.
Rule 8 Section 9j

A base Runner must return to the base on a Foul ball not caught.
Rule 8 Section 8a

The Runner need not retouch after a Foul tip as this is considered a regular Strike and the ball remains alive.
Rule 7 Section 8 & Effect
Interference Plays

On all Interference plays somebody must be out and the ball is dead. Runners return to the last base touched.

Rule 9 Section 1f

When the Batter interferes with a play at the plate, he is out. Runners return to the last base held at time of the Interference.

Rule 7 Section 9k 4 & Effect

The Runner closest to home is out if the coach leaves the coach’s box and makes the Fielder think he is a Runner by running toward home, and draws a throw from the Fielder to the catcher.

Rule 8 Section 9q & Note

The Runner is out if team-mates gather around a base to which the Runner is advancing to confuse or hinder the Defensive Team.

Rule 8 Section 9p
**Scoring of Runs**

Runs score if the Appeal Play for the third out is behind the Runner and is not a Force Out.

Rule 5 Section 8a

The Runner does not score if the Batter is put out before reaching first and it is the third out.

Rule 5 Section 8b 1

The Runner does not score if any other Runner is put out by a Force Out for the third out.

Rule 5 Section 8b 2

If a proceeding Runner is the third out on an Appeal Play.

Rule 8 Section 4e Exception
Part 4: The umpire

The umpire should line up their eyes just above the top of the zone and on the inside edge of the plate between the plate and the Batter.

Umpires should judge Balls and Strikes over the catchers shoulder nearest to the Batter.

Be in a position to call all plays. If working alone, start game behind the plate.
Strikes are called verbally and signalled with the right arm; refer page 42

'Balls' are not indicated, merely called vocally.

The signal for Safe; refer page 40
Indicate 'balls' on the left hand and 'Strikes' on right every few pitches. It avoids unnecessary questions. Include a verbal count eg '2 balls, 2 strikes'.

Don't 'give away' appeal plays.

When anyone questions a call, listen, explain what you saw and explain the rule if you need, then passively ask the player or coach to continue on with the game and start to move away.

If the person continues to dispute the call or verbally abuses you then under the rules you may need to eject them from the game.

When cleaning home plate, step inside the diamond, face crowd, turn your back to the pitcher, lean over and brush plate. Keep the plate clean.
Some duties of the umpire before each game

See that the field is marked correctly.

See that pitcher's rubber is in good condition, and bases are firmly pegged.

Module 2 – On Diamond Mechanics

This section provides a guide to the basic on diamond umpire mechanics required to achieve Level 1 accreditation.

The Ready Position

The Ready Position is the body position of a base umpire pre pitch, during and prior to the pitch reaching the batter and/or catcher.

As the pitcher assumes the Set Position (hands together), the umpire should step into the ready position, stopping just prior to the start of the pitch with his feet a comfortable distance apart (at least shoulder width), staying relaxed but still.

Before the pitcher releases the pitch, the umpire should adopt the ‘ready’ position by unlocking the knees slightly, with the weight resting lightly on the balls of the feet and the hands drawn in close to the belt line in front of the body, or with relaxed open hands and arms bent at the elbows approximately 45 degrees.

Note: In this stance the umpire’s upper body should be relaxed and the umpire should not be in a semi sitting position. A good example of this is the fielders; they go into a Ready Position every pitch with the pitcher.

The umpire should stay in this position until the ball reaches the catcher or is hit by the batter.

If the pitch is hit or the catcher throws the ball to a base, the umpire pushes off on the balls of his feet and moves to position for a potential play.
Signals

There are two types of signals that an umpire will use while umpiring. One set is used to communicate to the players, coaches, scorers and spectators the decisions made during the game (i.e. safe and out, fair and foul.) The other set of signals is used to communicate between the umpires. Following are a few of the more common signals that you may be required to use at a championship.

Safe Signal

The umpire should move into the proper position giving them a good angle on the play.

Do not make a call until it is established that the fielder making the play has complete control of the ball.

The mechanic is as follows:

1. Adopt the ready position and be alert for the play.
2. With your head straight forward looking at the play, come up to a standing position.
3. Bring both hands up to your chest about shoulder height.
4. Give a brisk verbal call of ‘SAFE’, while fully extending your arms horizontally, parallel with the ground and your palms down.
5. Again, adopt the ready position and keep your eye of the play until the play is complete.

Note: This is to develop good habits, staying with the play until all action has been completed. This position is not required if the umpire needs to position himself for another call or potential call.
**Out Signal**

The umpire should move into the proper position giving them a good angle on the play. Do not make a call until it is established that the fielder making the play has complete control of the ball.

The mechanic is as follows:

1. Adopt the ready position with your hands slightly in front of your body and relaxed ready for the play.
2. With your head straight forward looking at the play, come up to a standing position.
3. Bring your left hand into your body, slightly above your waist.
4. Give a brisk verbal call of ‘OUT’, while punching your right arm to the 90 degree hammer position and clenching the fist.
5. Drop back to a ready position with your hands slightly forward and relaxed.

**Note:** This is to develop good habits, staying with the play until all action has been completed. It is not required if the umpire needs to position himself for another call or a potential call.
Strike Signal

The mechanic is as follows:

Drop into the set position. Allow the pitch to cross home plate. Do not make a call until the catcher has caught the ball. Make a brisk verbal call of 'Strike'.

Do not step back; keep both feet staggered as you assume an upright position.

Bring your left hand into your body, slightly above the belt.

Raise your right arm to shoulder height with fist clenched. The palm of your hand should be facing your right ear, your right arm is at 90 degree hammer position.

Step back and away from the Catcher and relax until you need to focus again on the next pitch.

Called Infield Fly (or Infield Fly 'Assist')

When an Infield Fly occurs, (for assistance on Infield Fly situations refer to Basic Umpire Manual – Rules Module,) all Umpires will point up at the ball with their right arm.

It is initially the Plate Umpire's responsibility to call the play. With his right arm in the air, he will call 'Infield Fly – batter is out.' He will then give the 'Out Signal'.

If the ball is close to the foul line and it is difficult to determine as to whether the ball is going to be fair or foul, the Plate Umpire will call 'Infield Fly – batter is out if fair.' He will then give the 'Out Signal'.

Page 42
**Delayed Dead Ball**
The delayed dead signal is given in situations where it may be necessary to eventually stop play and, depending on the circumstances, apply a penalty or award eg Illegal pitch, obstruction.

Any umpire may give the delayed dead ball signal. It is given by extending the left arm straight out from the shoulder and horizontal to the ground.

**Ground Rule Double**
This signal is given only after 'Time' has been called and signalled. It is given with the right arm extended above the head. Two fingers are shown to indicate a 'two base award'. Verbally call 'Two Bases.'

**Home Run**
The Home Run signal is given when a fair batted fly ball travels over the outfield fence prior to touching the ground, or hits the foul pole above the fence line.

The right arm is extended above the head with the fist clenched. A clockwise circling motion is used to indicate the home run.

**Time (Suspension of Play)**
Calling 'Time' will immediately suspend play so it is important that the umpire waits until all play has ceased. It should be called in a loud and clear voice while raising both arms above the head.

Any umpire may call time. When one umpire calls 'Time', all umpires shall acknowledge the call by also calling and signalling 'Time'.
One Umpire System

In the One Umpire System, you are responsible for every call during the game. It is obvious that not everything that happens will be seen. The single umpire must hustle around the diamond and anticipate where to make the best possible call.

With Runners on base, give the lead Runner priority in your positioning. On every hit ball, the umpire must quickly move out from behind the plate and into the Infield for the best view of the play that develops. It is important to always try to keep the ball in view. Take a quick look at the Runners as they touch bases, especially when scoring at home. Watch as the play progresses, anticipate and move towards the base where the first play will occur, be prepared to quickly reset and move towards the next play.

If the first play is potentially a routine call, shift towards where the next play may occur, especially if it is a possible tag play. Try and get into the best position to see the ball, the fielder, and the Runner to give yourself the possible view to make the correct call. Make sure your position for one play does not put you in the way of a player or a thrown ball.

You must watch for, Tags, Obstruction, Interferences, Touched Bases, Runners passing each other, Blocked Balls, etc.

Try to keep the following Four Elements in your vision:

1. The ball
2. The defensive player making the play
3. The batter runner or runner and
4. The base or area where the above elements meet

Any time the ball is thrown, you must know where the runners are in case the ball is thrown out of play. It is always important to hustle. You don't have a partner to assist you. You should never make a call without moving out from behind the plate. When the ball is in the infield and no further play is evident call and signal ‘Time’ and quickly return to your position behind the plate.

Conventions

The conventions used to describe the situations in this manual are:

1. The plate umpire is referred to as ‘Plate’ or ‘P’
2. Runners at 1st, 2nd and 3rd bases are indicated with ‘R’
3. Movement of the umpire is
   Movement of the ball is

Plate Umpire Starting Position

In all cases, the plate umpire’s starting position and actions are as follows:

➢ Sweeps the home plate and checks that the field is clear and ready for play.
➢ Should take up a position behind the catcher.
➢ After each pitch, you should call Ball or Strike, give signals as required and then relax, while maintaining good general awareness.
➢ Responsible for calling:
  • Illegal Pitches

Two Umpire Rotation System

The two umpire rotation system, as implied by the word 'rotation', there is an expectation that umpires move into positions appropriate for each play. The information referring to positioning and the calling of plays is written for ideal circumstances and for the best possible positioning for the majority of plays. Proper positioning can be achieved if you think in terms of 'keeping the play in front of you'. In order to do this there are four basic elements that must be kept in your vision.

1. The ball
2. The defensive player making the play
3. The batter runner or runner and
4. The base or area where the above elements meet

Three Basic Principles

There are three basic principles that apply to the Two Umpire Rotation System; the division principle, the infield/outfield principle and the leading runner principle.

1. The Division Principle

The home Plate Umpire takes all calls at Home Plate and third base and the Base Umpire takes all calls at first and second bases.

Exceptions

1. When the Batter Runner goes to third base, the Base Umpire then takes Batter Runner to third
2. On an Infield play, the Base Umpire takes the first call on a base, even if it is at third base
3. When a Runner steals to third base, the Base Umpire takes the call
4. When the Base Umpire is positioned between second and third bases before the pitch and there is a pick-off play by the Catcher to first base in an attempt to put out the Runner on first base. It is the home plate Umpire who takes the call at first base
2 The Infield/Outfield Principle

When the ball is in the infield, the Base Umpire moves or stays in the outfield.
When the ball is in the outfield, the Base Umpire moves to a position in the infield.

3 The Leading Runner Principle

The base umpire should start in a position that is up with the lead runner. The expectation is that, on a pick-off play, (a play where the catcher attempts to put out a Runner leading off from a base on the pitch) the catcher will play the lead runner and therefore the base umpire needs to be in a position to make this call.

Note: It is the responsibility of both umpires to ensure all bases are covered in Tag-Up (re-touching the base after a fly ball is first touched on a catch) situations.

All umpires must watch for, Tags, Obstruction, Interferences, Touched Bases, Runners passing each other, Blocked Balls, etc.

Prior to the pitch the umpire should stand relaxed. He should be focused on the pitch and the batter, be ready and mobile for a possible play. During a call it is important to be still and focused on the play in front of you.

Conventions

The conventions used to describe the situations in this manual are:

1. The plate umpire is referred to as ‘Plate’ or ‘P’ and the base umpire is ‘Base’ or ‘B’.
2. Runners at 1st, 2nd and 3rd bases are indicated with ‘R’
3. 1st Movement of the umpire’s is →
   2nd Movement of the umpire’s is ←
   1st Movement of the ball is →
   2nd Movement of the ball ←
   (indicating all potential secondary plays available to the fielders)
4. Icons used in this manual:

Plate Umpire Starting Position

In all cases, the plate umpire’s starting position and actions are as follows:

➢ Sweeps the home plate and checks that the field is clear and ready for play.
➢ Should take up a position behind the catcher.
➢ After each pitch, you should call Ball or Strike, give signals as required and then relax, while maintaining good general awareness.
➢ Responsible for calling:
   • Illegal Pitches
   • Fair/Foul Balls
   • Batting infractions
➢ On every hit exit from behind the catcher via the left (even on a left handed batter) and rotate to your position.
➢ If the ball is close to the foul line, move to the line and straddle the line to make the fair/foul call.

Plate movement following a batted ball will be explained for each case.

**Base Umpire Ready Position**

The Base Umpire should assume a ready position by:

➢ Facing SQUARE TO THE BATTER prior to the pitch.
➢ As the pitchers assumes the set position (hands together), the umpire should place his feet a comfortable distance apart (at least shoulder width), stay relaxed but still.
➢ As the pitcher releases the pitch adopt the ‘ready’ position by unlocking the knees slightly, with your weight resting lightly on the balls of the feet and the hands drawn in, close to the belt line in front of the body.
➢ Umpires may walk into the ready position (no more than 2 steps), stopping just prior to the ball being released and shifting eight to the balls of the feet when the ball reaches the plate.
➢ Remain in this position until the catcher catches the ball or the ball is hit.

Once the ball is hit or thrown, the umpire pushes off on the balls of his feet and moves to position for a potential play.
Between Inning Position

**Starting position**

**Plate Umpire**

- Stand in a position just off the third base line in Foul Territory approximately one third of the way to third base
- Hustle the team off the field and the team which has just batted onto the field
- Stand facing the diamond with your hands relaxed at your sides
- Observe the Warm-Up Pitches (five allowed for each pitcher in the first innings and with each new pitcher. Then three warm up pitches are allowed at the start of each half innings)
- Let the Catcher know when the last Warm-Up Pitch has been thrown, then say 'one more Catcher'
- Replenish extra ball supply
- Sweep the home plate and then assume a position behind the Catcher after the Warm-Up Pitches

During the first half inning and when there is a change of pitchers, you may wish to put on the mask and observe the Warm-Ups after making the line-up changes and announcing them to the Official Scorer

**Base Umpire**

- Stand in a position just off the first base line in Foul Territory approximately one third of the way to first base
- Hustle the teams on and off the field
- After the warm-up pitches, hustle to your preliminary starting position 5-6 metres (16-20 feet) behind the base, with the inner foot 150 mm (6 inches) off the fair/foul line in foul territory (measured from the outside of the foot closest to the foul line).
- Stand facing the diamond with your hands relaxed at your sides

**Note:** This may be completed by any softball official who has observed the applicant umpire achieve the desired level of competency. All competencies do not have to be observed in the one game. Competency can be achieved over a number of the required five games.

This is not to be treated as an assessment; it is simply a checklist that the applicant is competent at entry level.
