**Ready Position:**
The ready position is the body position a base umpire takes immediately prior to the pitcher coming to a pause and up until the pitch is released. As the pitcher assumes the pause position, the umpire should take the ready position by placing the feet at a comfortable distance apart, (normally shoulder width) staying relaxed but still. As the pitcher releases the pitch, soften the knees (slightly bend), adjust body weight to the balls of the feet and draw the hands in, close to the body at belt level. If the ball is hit, push off the ball of the outer foot and move to the appropriate position for a possible play. If the ball is not hit, relax until the start of the next pitch but always be aware of pick off plays, passed balls, etc that may cause the umpire to move to a position to call a play.

**Set Position**
This is the position an umpire should take, prior to making a call on a play. This position is very similar to the ready position. On a force play, the umpire moves to a proper position to see the play; 5 – 5.5 metres (18 feet) back, 90 degrees to the throw; on plays at 1st base, do not go beyond 45 degrees to the base, and normally take three steps into fair territory which will give a 22.5 degree angle. Once at this position the umpire should go into the set position which mimics the ready position, feet spread apart (normally shoulder width) knees soften and slightly bent, and hands drawn into the body at belt level. On a tag play, the umpire moves to a proper position to see the play, 4 – 4.5 meters (12- 15 feet) back and not in line with the throw, 90 degrees to the runner’s base path and just short of the leading edge of the base. Once at this position the umpire should go into the set position which mimics the ready position, feet spread apart (normally shoulder width) knees soften and slightly bent, and hands drawn into the body at belt level. Move to 3 meters in making the call.

**Making the Call**
While in the set position, the umpire should pick the ball up with the eyes and track the ball by turning the head with the ball. On force plays, just prior to the thrown ball reaching the receiver, change your focus to the ball, fielder and runner, watching the three come together. Once you have made your decision on the play, rise from the set position and signal and verbalize your call, using appropriate emphasis and voice. On tag plays, watch the thrown ball into the fielder’s glove and follow the ball and glove to the area of the tag, picking up the runner in your field of vision as the fielder begins to move towards the area where the tag will happen. With the Four Essential Elements in front of you judge whether the tag was made prior to the runner touching the base. Rise and make the signal and verbal call, using the appropriate emphasis and voice. If required you may adjust your position to best see all the Four Essential Elements.

**Fly Ball Coverage**
On a fly ball to the outfield, one base umpire shall go out to determine whether the ball is fair or foul and whether a fielder has made a catch or there is no catch. If a catch, the umpire is to signal the out. In the 3-umpire system if, the responsible umpire is at the 2nd base position, then the plate umpire shall make the call fair or foul, catch or no catch from F7 or F9 to the fence.

**Rotations**
Umpire infield rotations shall be clockwise. Exception: if required to backfill, trail a runner or return from a holding position.

**Holding Position**
A position in foul territory, halfway between home plate and 3rd base or home plate and 1st base, 4-5 metres (12-15 feet) off the foul line. Umpires use the holding position, while watching the play develop to determine which base they are required to cover. U1 shall use the holding zone before rotating to home plate. If no immediate play at home and with U3 abandoning his position, move to home plate and push the PU up to 3rd base.

**Backfilling**
This is when the play requires an umpire to counter-rotate to cover a position they left due to another umpire being required to cover a play situation elsewhere. An umpire must be ready to move to cover off a play when the responsible umpire cannot get in position to make the call. Example: With a runner at 2nd or 3rd base or runners at 2nd and 3rd base and either U2 or U3 goes out to cover a fly ball to the outfield and the PU stays or moves back to home for a play. Depending on the development of the play, the BU at 2nd base may need to backfill to provide coverage at 3rd base. (Note: this rotation is not shown)
Starting Positions – Base and Outfield Umpires

3 Umpire System

With no runners on, U1 and U3′s preliminary starting position should be 5.5 metres (18 feet) behind the base, 15–30 cm (6–12 inches) off the line in foul territory (measured from the outside of the foot closest to the foul line).

With a runner on 1st base only, U3 moves to a position 4-5 metres (12-15 feet) back, on the 1st base side of 2nd base, just short of the leading edge and behind an imaginary line drawn between the closest infielders. U1 moves forward to a position 4-5 metres (12-15 feet) behind 1st base.

With any runner on 2nd base, (or 1st and 3rd base), U1 moves to a position 4-5 metres (12-15 feet) back no closer than halfway but not more than 2/3rds from 1st base, between 1st and 2nd bases. In both these cases, U1 should adjust his position so as be behind an imaginary line running between the closest infielders. U1 must not set-up in a position ahead of any infielder and must also be in a position to have clear vision to home plate.

With any runner on 2nd or 3rd base, U3 moves back to his original starting position but only 4-5 metres (12-15 feet) behind 3rd base. Exception: With any runner on 3rd base U3 should be 4-5 metres (12-15 feet) behind 3rd base in foul territory up to 2 metres (6 feet) off the line. U3 must not have his vision to home plate blocked by the runner so he is able to make calls on dead ball situations and judgements on check swings, enabling him to assist the plate umpire when requested.

With a runner on 3rd base only U1 moves back to the original starting position. **On a ground ball to the outfield with no possible play at 3rd base, U3 rotates inside for any call at 2nd base.**

When either U1 or U3 goes out to cover a fly ball to the outfield the base umpire remaining shall stay with the Batter Runner for possible calls at 2nd and 3rd base. (Note: this rotation is not shown)

4 Umpire System

With no runners on, U1 and U3′s preliminary starting position should be 6-7 metres (18-21 feet) behind the base, 15–30 cm (6–12 inches) off the line in foul territory (measured from the outside of the foot closest to the foul line); U2′s preliminary starting position should be 6-7 metres (18-21 feet) back, on the 1st base side of 2nd base, just short of the leading edge.

**With any runner on base, U1, U2 and U3 should be in their original starting position but only 4-5 metres (12-15 feet) behind the base.**

Exception: With any runner on 3rd base U3 should be 4-5 metres (12-15 feet) behind 3rd base in foul territory up to 2 metres (6 feet) off the line. U3 must not have his vision to home plate blocked by the runner so he is able to make calls on dead ball situations and judgements on check swings, enabling him to assist the plate umpire when requested.

3 and 4 Umpire Systems

Alternative mechanics shown on page 30 are not the ISF preferred mechanic and are recommended only to be used when the developing play dictates. An umpire in using the alternative mechanic must judge that he will be in a better position to have the **Four Essential Elements** in front.

5 and 6 Umpire Systems

**ULF and URF preliminary starting position should be in front of the outfielder half way between the outfielder and the base umpire; up to one metre off the line in fair territory so as to have clear vision to home plate.**

Umpires to run parallel to the flight path of the ball until they get an angle on the play. When tracking a ball leaving the field of play close to the foul pole stay well back from the foul pole and on the foul line.
Live Ball Play from Infield – No runners on base:

3 Umpire System

P - Trails the Batter-Runner for the swipe tag, watch for interference by Batter-Runner or to assist at 1st base if required; responsible for fair/foul call. Moves to holding zone between home and 3rd base when Batter-Runner reaches 1st.

U1 - Ball thrown from fair territory – Move into fair ground but no further than a line at 45 degrees through 1st base. Ball thrown from foul territory – Move into foul ground but no further than a line at 45 degrees through 1st base. If the Batter-Runner advances safely to 2nd base, move to the holding zone and be prepared to move to home for possible call.

U3 - Rotate inside for any call at 2nd base.

4 Umpire System

P - Trails the Batter-Runner for the swipe tag, watch for interference by Batter-Runner or to assist at 1st base if required; responsible for fair/foul call. Moves back to home when Batter-Runner reaches 1st.

U1 - Ball thrown from fair territory – Move into fair ground but no further than a line at 45 degrees through 1st base. Ball thrown from foul territory – Move into foul ground but no further than a line at 45 degrees through 1st base.

U2 & U3 - Need not leave their starting position unless the Batter-Runner continues from 1st base.
Ground Ball to Outfield – No runners on base:

3 Umpire System
- No base umpire goes out any ground ball to the outfield -

P - Move into holding position; be prepared to bounce inside for the call at 3rd base on the Batter-Runner.

U1 - Move down the foul line and be prepared to bounce inside for a possible call at 1st base. Rotate to the plate, only if the Batter-Runner progresses from 2nd to 3rd base, for a possible call at Home.

U3 - Rotate inside for any call at 2nd base.

4 Umpire System
Hit to RF - No base umpire goes out -

P - Move to the left of the plate, watch for interference by the Batter-Runner or to assist at 1st base if required; responsible for fair/foul call.

U1 - Move down the foul line and be prepared to bounce inside for a possible call at 1st base

U2 - Buttonhook inside for any call at 2nd base

U3 - Move down foul territory, bounce into the infield for any play at 3rd base. (Refer page 30 for alternate mechanic)

4 Umpire System
Hit to CF/LF - No base umpire goes out -

P - Move to the left of the plate, watch for interference by the Batter-Runner or to assist at 1st base if required; responsible for fair/foul call.

U1 - Move down the foul line and be prepared to bounce inside for a possible call at 1st base

U2 - Stays out for an acute angle on the throw from LF for any call at 2nd base.
